

1

WHAT IS CLAIMED IS:

- 5 1. An aromatic cleanser kit comprising:
 a quantity of unscented cleanser;
 a dispenser bottle for containing and dispensing the
unscented cleanser; and
10 a plurality of fragrance materials having at least two
different aromas.
2. The aromatic cleanser kit as described in claim 1,
wherein the unscented cleanser is in a highly concentrated
15 form, and wherein the kit further comprises a concentrate
container for storing the concentrated cleanser.
3. The aromatic cleanser kit as described in claim 2,
20 wherein the dispenser bottle is further marked with a fill
line identifying a quantity of concentrated unscented cleanser
to add to the dispenser bottle.
4. The aromatic cleanser kit as described in claim 1,
25 wherein the unscented cleanser is dilute.
5. The aromatic cleanser kit as described in claim 1,
wherein the plurality of fragrance materials are provided as a
30 plurality of effervescent tablets of fragrance material.
6. The aromatic cleanser kit as described in claim 1,
wherein the plurality of fragrance materials are scented
35 materials selected from the group consisting of oils, powders,
crystals, and solutions.

1

7. The aromatic cleanser kit as described in claim 1,
5 wherein the plurality of fragrance materials further comprise
at least one colorant.

8. The aromatic cleanser kit as described in claim 7,
10 wherein each of the fragrance materials having the different
aromas have a different colorant.

9. The aromatic cleanser kit as described in claim 1,
15 wherein the cleanser is non-toxic.

10. The aromatic cleanser kit as described in claim 1,
wherein the fragrance material is non-toxic.

20 11. An aromatic cleanser kit comprising:
a quantity of non-toxic highly concentrated unscented
cleanser;
a concentrate container for storing the concentrated
25 unscented cleanser;
a dispenser bottle for containing and dispensing a
diluted unscented cleanser; and
a plurality of effervescent tablets having a combination
of an effervescent material, a fragrance material, and a
30 colorant, wherein the fragrance materials of at least two of
the effervescent tablets have different aromas and colorants.

12. A method of scenting a cleanser comprising:
35 providing an aromatic cleanser kit comprising a highly
concentrated unscented cleanser, a dispenser bottle, and a

1

plurality of fragrance materials having at least two different aromas;

5 adding a quantity of the highly concentrated unscented cleanser to the dispenser bottle;

diluting the concentrated unscented cleanser in the dispenser bottle;

10 adding one of the plurality of fragrance materials to the diluted unscented cleanser; and

homogeneously dispersing the fragrance material throughout the diluted cleanser.

15 13. The method as described in claim 12, wherein the plurality of fragrance materials are provided as effervescent tablets of fragrance material, and wherein the effervescence of the effervescent tablet automatically homogenously
20 disperses the fragrance material throughout the cleanser.

14. The method as described in claim 12, wherein the plurality of fragrance materials are scented materials selected from the group consisting of oils, powders, crystals,
25 and solutions.

15. The method as described in claim 14, wherein homogeneously dispersing comprises agitating the fragrance
30 material and the diluted unscented cleanser.

16. The method as described in claim 12, wherein the plurality of fragrance materials further comprise at least one
35 colorant.

1

17. The method as described in claim 16, wherein each of
the fragrance materials having the different aromas have a
5 different colorant.

18. The method as described in claim 12, wherein the
cleanser is non-toxic.

10

19. The method as described in claim 12, wherein the
fragrance material is non-toxic.
